How to Submit a Record for Publication

Submitting a record for possible publication in this annual booklet is simple. If you have information that can update our record, or correct it, be sure to contact us by October 15.

That date is the final acceptance date for copy to be included in the next season's edition.

Normally we will publish the top 10 performances in any category. If a number of individuals tie, space limitations may prevent us from printing those names but the record totals will be noted. We expect records to come from regularly scheduled season and tournament games only. No summer league games should be included in the statistics.

Be sure to provide the same sample of information displayed in the record book for that category.

Names of individuals, school, years and statistics are all important in the correct crediting of records.

Feel free to suggest any changes, additions or corrections.

Coaches, sports information sources, and sportswriters are urged to submit possible records. Send any new record updates to:

Scott Hughes
1200 W McKay
Shelbyville, IN 46176
sdhughes@shelbycs.org

Please do not send entire team stats and expect us to edit them for any records that may qualify. Highlight those records that you recognize as qualifiers.
